

# What is an EPIC Account?

# What is an EPIC Account?

EPIC or Electronic Profile Information Center is a product platform that delivers DiSC Online Assessments for you – 24 hours a day.

You can [buy an EPIC account here](#). You do not need to be a certified DiSC trainer to own the powerful EPIC account.

EPIC is a “**do it yourself**” website that allows the administrator to administer, print, customize and store DiSC profiles.

The online DiSC profiles administered through the EPIC system offer a great advantage over paper and pencil DiSC profiles such as C-888.

# What is an EPIC Account?

---

With access to an online EPIC account, you can issue access codes to anyone, anywhere in the world 24/7... Once a respondent completes an assessment, EPIC can help you generate personalized profiles, with your company logo and contact details.

These can be used as a stand-alone piece, or in combination as follow up reports such as comparison reports or as part of a larger training program.

**And the good news is that - EPIC Credits never expire!!**

# Thank you
